

FEATURE DESCRIPTION

	Console	local x 1, remote x 15
	Host Ports	1
Networking	Maximum PC Connections	128
	Max Resolution	1920X1440 (local), 1280X1024 (remote)
	Console	Keyboard: Mini Din 6 (Female) x 1 Mouse: Mini Din 6 (Female) x 1 Display: HDB15 (Female) x 1
	Remote Console	Cat5: RJ45 8P8C (Cat 5/5E/6) x 1
Ports	PC	Keyboard: Mini Din 6 (Female) x 1 Mouse: Mini Din 6 (Female) x 1 Display: HDB15 (Male) x 1
	Serial	DB9 (Male) x 1
	USB	USB Type-B (Female) x 1
	Reset	1
	Bandwidth	200MHz
OS Platform		Windows 2000/ME/XP/NT, Linux, Unix
	Cables and Accessories	RS232 x 1
Miscellaneous		USB (A to B) x 1 Daisy-Chain (90 cm) x 1
Environmental Parameters	Temperature, ambient operating	0 to 50°C (32 to 122°F)
	Temperature, ambient storage	-20 to 60°C (-4 to 140°F)
	Humidity (RH), ambient	0 to 80% non-condensing
Exterior		LAN Traffic, 10/100M
Physical Dimensions	Dimensions (HxWxD) mm, in	27x141x167, 1.06x5.55x6.57
	Housing	Metal
Power Consumption	Input	DC 5V, 2.5A (Switching)
	Type	Adaptor
Approvals and Compliance	Safety Compliance	CE/FCC Class A Certified
	Unit Weight (kg / lb)	0.67 / 1.47
	Gross Weight (kg / lb)	12.0 / 26.4
Packaging	CBFt (cuft)	2.231
	Carton Quantity	5

The LCS-015 provides access to your KVM network remotely via an ethernet or telephone connection, so you can control your entire network any time with a single keyboard, display, and mouse.

LCS-015 1-Port IP KVM Switch

A cost-effective add-on solution for upgrading your KVM network

Give your KVM network IP capabilities

The LCS-015 is ideal for KVM structures which already have a local management system. Compatible with most KVMs, this 1-Port IP KVM switch can be easily incorporated into a pre-existing KVM structure opening the door to a multitude of additional features. This simple addition grants you access to your entire network with something as simple as a LAN or Internet connection.

Maintain display and system performance

The LCS-015 remote console supports a maximum resolution of up to 1280x1024 in order to preserve display quality. In addition, control software runs on the embedded processor, rather than mission-critical servers, which means no interference in server operations or network performance slowdowns. Demand convenience without compromising performance.

KVM Compatibility

Integration into a pre-existing KVM structure is simple and cost-effective

Global Access

Control of your KVM from anywhere in the world with an IP, ISDN, or a telephone connection

Secure Network

SSL encryption and BIOS level access ensure a safe connection

Long-distance "local" connections

High density Cat5 connections provide flexibility, so servers can be placed up to 500 meters from the master switch

Optimal Resolution

Video resolution registered automatically to deliver best possible display
